

Sept 10 hands all over her, he was in underwear  
never made gestures in office

cringes when she sees him

didn't feel violated but could have been (Sept 10)

didn't know what to say when he invited her out

father requested not to do work on 15<sup>th</sup> floor

V. gets transferred out of nowhere, supposedly  
MEN doesn't want to look at her

- V. told CS she was next to go

feels being set up for failure

only one in his view (office to desk)

feels nowhere to move, likes working w. others in  
office

doesn't look up when he is out of <sup>his</sup> office

feels A is saying stuff about her to <sup>his</sup> family

A would <sup>call</sup> desk phone & leave msgs → drunk at  
night

She would be away & Charlie would say A wanted  
her to call → Charlie would be concerned
